Date: .....
Assistant Professor
Bhagwan Tripura College of Science & Technology
Anandanagar, Tripura(W)

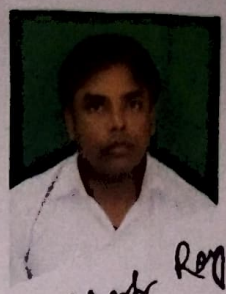

Suggestions for reformulating the Project: final Report should be in order of Topics as per Ignou Project Guideline and all Digrams should be in complete manner .

MR. BIBHASH ROY

M.Tech (CSE),T.U.,B.Tech(CSE),NERIST.

Associate Professor, TIT, Narsingarh, Tripura (w)

Email: bibhashroy10@gmail.com // bibhashroy10@yahoo.co.in

Bibhash Roy.

Academic Qualifications:

Examination	Board/University/Institute	Year	% age
Madhyamik	T.B.S.E[1]	1994	73.40
Higher Secondary (Science)	T.B.S.E	1996	71.20
Certificate (Electrical Engg.)	N.E.R.I.S.T[2]	1998	80.00
Diploma (CSE)	N.E.R.I.S.T	2000	77.60
B.Tech (CSE)	N.E.R.I.S.T	2002	77.40
M.Tech (CSE)	T.U.	2009	84.00

Educational Training:

Training Title	**Vocational Training**
Certificate given by	O.N.G.C. Agartala, Tripura
Period of Training	01/06/2000 to 20/07/2000 (50 Days)
Training Title	**Industrial Training**
Certificate given by	Electronics Test & Development Center (E.T.D.C) Agartala, Tripura.
Period of Training	04/06/2001 to 23/07/2001 (50 Days)

IT Expertise:

Operation System	Windows NT, Windows.., MS-DOS
Database	Oracle 8*i*
Front End Tools	VB 6.0
Language	C, C++, SQL, PL/SQL
Software Tools	MS-Office 97,2000&XP
Hardware	Networking & Assembling.

Dissertation submitted in partial fulfillment of B.Tech degree:

Routing in WDM based Fiber Optic Network using Genetic Algorithm.

Dissertation submitted in partial fulfillment of M.Tech degree:

A study on Reactive routing based on QoS parameters.

Research domain in pursuing PhD: Software Risk Management

Previous Professional Experience: Working Experience from June, 2002 to till date.

Name of Organization	Designation	Nature of Job	Duration
1. CEE SYSTEMS, Agartala	**Software Consultant**	Develop & Maintenance of S/W, LAN Installations	**3 yrs (June'02-June'05)**
2. K.V. Kunjaban, Agartala.	**Computer Instructor**	Teaching & Lab Supervising.	**1 Year (April'03-Mar'05)**
3. IGNOU, Tripura.	**Academic Councilor**	Faculty for BCA & MCA course	**Jan'03 –Till date**
4.Tripura Engineering College (TEC), Tripura	**Visiting Lecturer in CSE**	Faculty of Computer Science Deptt.	**6 Months (Dec'03-April'04)**
5. K.V. ONGC, Agartala.	**PGT(Computer)**	Teaching on VB & Oracle 8i	**2 yrs (April'04-Mar'06)**
6. BTCST, Anandanagar, Tripura (w)	**Lecturer (Computer)**	Regular faculty of Computer Science dept.	**Jun'2005 to Aug'2008**
7. Tripura Institute of Technology, Narsingarh	**Assistant Professor**	Faculty of Computer Science and Engineering	**August'2008 to Aug'2022**
8. Tripura Institute of Technology, Narsingarh	**Associate Professor**	Faculty of Computer Science and Engineering	**August'2022 to till date**

Personal:

Date of Birth - **05th December 1977.**
Father's Name - **Mr. Dilip Kumar Roy.**
Mother's Name - **Smt. Tapati Roy.**
Nationality - Indian.
Languages known-English, Bangla, Hindi

Permanent address- **Madhya Badharghat (Sreepalli), P/O-Siddhi Ashram, Agartala-799003, Tripura(w).**
Mobile:- 9436127287.

Room Booking System

Introduction

Room Booking System is the system, which manages room booking process by a customer and many more. Here, the user can use the features of CRUD and manage room booking, customer details, payment system, etc. Login sessions will be managed by admin panel. Now talking about all the main functions of the system that is the feature to add, edit, delete and hotels and management of payment. While booking a hotel, the user has to provide full name, etc

Problem Statement

The existing traditional or manual hotel room booking frameworks frequently suffer from structural operational inefficiencies, manual records discrepancies, and delayed communication channels. Key problems identified in the current workflow include:

Data Redundancy and Errors: Manual ledger tracking leads to double-booking of rooms, conflicting schedules, and incorrect guest registration details.

Lack of Real-time Updates: Customers cannot instantly view current room availability, leading to heavy reliance on direct phone calls or manual check-ins.

Security Concerns: Storing customer information, login credentials, and billing records in physical registers or unencrypted files poses severe privacy risks.

Delayed Billing and Reporting: Compiling manual data to generate financial records, occupancy analysis, and employee performance statistics is heavily time-consuming.

Objective

This is a web-oriented application allows us to access the whole information about the hotel room, customers etc. This application provides a virtual tour of hotel. Here we will get the latest information about hotel room availability. This generic application designed for assisting the customer.

Scope and Feasibility

This activity is also known as the feasibility study which Perform and evaluate feasibility studies like cost-benefit analysis, technical feasibility, time feasibility and operational feasibility for the project. Project Scheduling should be made using chats. Feasibility study is carried out decide whether the proposed system is feasible for the company. It begins with a request from the user for a new system. It involves the following:

- Identify the responsible user for a new system
- Clarify the user request
- Identify deficiencies in the current system
- Establish goals and objectives for the new system
- Determine the feasibility for the new system
- Prepare a project chart that will be used to guide the remainder of the Project

Scope of the Hotel Room Booking System

It may help collecting perfect management in details. In a very short time, the collection will be obvious, simple and sensible. It will help a person to know the management of passed year perfectly and vividly. It also helps in current all works relative to Hotel Booking System. It will be also reduced the cost of collecting the management & collection procedure will go on smoothly. My project aims at Business process automation, i.e. I have tried to computerize various processes of Hotel Room Booking System.

- In computer system the person has to fill the various forms & number of copies of the forms can be easily generated at a time.
- In computer system, it is not necessary to create the manifest but I can directly print it, which saves our time.
- To assist the staff in capturing the effort spent on their respective working areas.
- To utilize resources in an efficient manner by increasing their productivity through automation.
- The system generates types of information that can be used for various purposes.
- It satisfy the user requirement
- Be easy to understand by the user and operator
- Be easy to operate
- Have a good user interface
- Be expandable
- Delivered on schedule within the budget.

Software & Hardware Requirements

Software Requirements

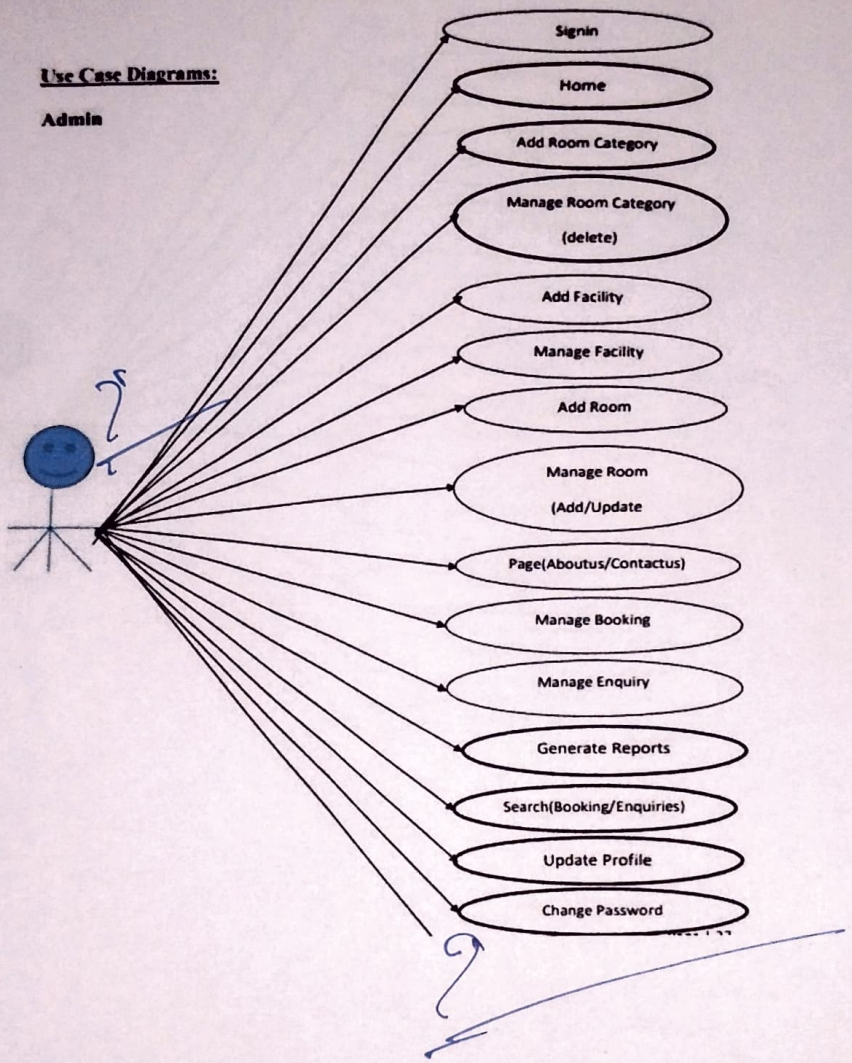

Technology	Tools
Front End	HTML, CSS, Java Script
Back End	PHP, MySQL
Framework	Bootstrap
Software	XAMPP, Visual Studio Code

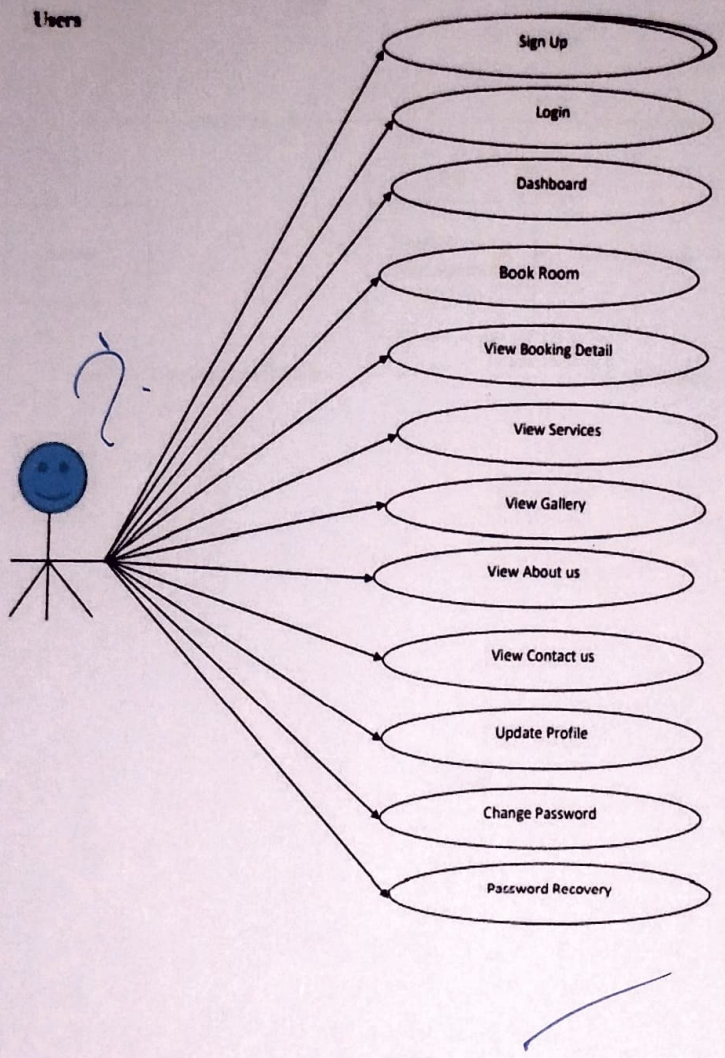

Hardware Requirements

RAM	2 GB or above.
Processor	Intel Dual Core or above.
Operating System	Windows7 or above, Ubuntu or any Linux based system.
Hosting	Amazon AWS, Go Daddy, Host Gator, Blue host etc.
CMS	Word Press etc.
Domain	.com, .inetc.
Browser	Google Chrome, Mozilla Firefox etc.
